PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in MERN stack development. Passionate about building scalable web applications with clean, maintainable code. Strong understanding of REST API design, JWT authentication, and modern React patterns. Seeking entry-level opportunities in product-based companies targeting 6-10 LPA.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Middleware

Database: MongoDB, Mongoose ODM

Auth & Security: JWT, bcrypt, Protected Routes, RBAC

File Handling: Multer, PDF parsing, Form Data

AI Integration: Groq API, Prompt Engineering, LLM APIs

Tools: Git, GitHub, Postman, VS Code, npm, nodemon

PROJECTS

AI Resume Checker | React 19, Node.js, Express, MongoDB, Groq AI, Tailwind CSS

- Built a full-stack AI-powered resume analysis SaaS application from scratch
- Implemented JWT authentication with register, login, and protected route middleware
- Integrated Multer for PDF file uploads with file type validation (PDF only, 5MB limit)
- Used pdfjs-dist for server-side PDF text extraction from uploaded resumes
- Integrated Groq AI API (llama-3.1-8b-instant) for resume feedback — strengths, weaknesses, rating
- Built ATS Compatibility Checker — compares resume with job description using AI
- Developed React 19 frontend with Context API for global auth state and protected routes

E-Commerce Backend API | Node.js, Express, MongoDB, JWT, bcrypt

- Designed RESTful API with Role Based Access Control (RBAC) — admin and user roles
- Built product management, cart, and order APIs with Mongoose schemas
- Implemented secure authentication with JWT and bcrypt password hashing
- Created admin dashboard APIs for order management and user administration

EDUCATION

Bachelor of Computer Applications (BCA)

Savitribai Phule Pune University — 2021 to 2024 | CGPA: 7.8 / 10

CERTIFICATIONS

- JavaScript Algorithms and Data Structures — freeCodeCamp (2023)
- MongoDB Basics — MongoDB University (2023)
- The Complete Node.js Developer Course — Udemy (2024)

STRENGTHS

- Strong problem-solving skills with ability to debug complex issues independently
- Quick learner — switched from Gemini to Groq API mid-project to solve quota limitations
- Clean code practices — separation of concerns, modular architecture
- Good understanding of full-stack data flow from DB to UI
