

SHIVAM ANIL SONAWANE

MERN Stack Developer

Nashik, Maharashtra | +91 9370457164 | shivamasonawane2468@gmail.com

CAREER OBJECTIVE

Computer Engineering graduate specializing in the MERN stack, with hands-on experience building a full-stack e-commerce application covering authentication, payments, and admin systems. Strong foundation in JavaScript, React, Node.js, Express, and MongoDB. Seeking a Full-Stack Developer role to apply problem-solving skills and deliver scalable, production-ready web applications.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+)
Frontend:	React.js, Redux, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, REST APIs, JWT Authentication
Database:	MongoDB, Mongoose
Tools & DevOps:	Postman, RapidAPI
Other:	Razorpay Payment Integration, Multer, Nodemailer, bcrypt

PROFESSIONAL EXPERIENCE

Full-Stack Development Intern Dec 2023 – Apr 2024

Edunet Foundation (under AICTE)

- Developed a full-stack restaurant table booking web application using the MERN stack, managing the end-to-end booking flow from form submission to confirmation.
- Designed and validated booking forms capturing customer name, email, phone, date, time, and guest count, with server-side validation before storage.
- Built and integrated RESTful APIs with Express.js to securely store and retrieve booking records in MongoDB.

KEY PROJECTS

Full-Stack E-Commerce Application 2025

MERN Stack (MongoDB, Express.js, React.js, Node.js) · Tailwind CSS · Razorpay

- Built a complete e-commerce platform with JWT-based authentication and email OTP verification, using Nodemailer and bcrypt for secure password handling.
- Implemented the product catalog with optimized data fetching via Promise.all and infinite scroll for smooth performance with large product sets.
- Developed a full admin panel with CRUD operations for product management, including image uploads via Multer and automated file cleanup.
- Integrated the Razorpay payment gateway end-to-end with coupon/discount validation, a persistent shopping cart module, and a dedicated payment success flow using React Router state.
- Designed a consistent UI system across customer and admin views using Tailwind CSS with a custom color palette and reusable component patterns.

AI Resume Checker 2026

React 19, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Multer, Groq AI

- Built an AI-powered resume analyzer with secure authentication, PDF upload, ATS compatibility checking, and recruiter-style AI feedback.
- Developed RESTful APIs using Express.js and MongoDB for resume management, parsing, analysis, and user history.
- Integrated Groq AI and pdfjs-dist to extract resume content and generate personalized resume insights through prompt engineering.
- Implemented JWT authentication, Context API, and protected routes, and optimized performance by caching AI analysis results in MongoDB.

EDUCATION

Bachelor of Engineering in Computer Engineering 2021 – 2025

MVP'S KBT College of Engineering, Nashik | CGPA: 7.3/10.0

Higher Secondary Education (HSC) 2019 – 2021

L.D.P Vidyalaya, Lasalgaon, Nashik | Percentage: 83%

CERTIFICATIONS

- Full-Stack Development Bootcamp – CodingWise
- Key Skills for Software Testing – Mindluster
